

HYDAC INTERNATIONAL

Technology Area / 科技領域

2-Piston accumulator

One accumulator for different loads

雙活塞蓄壓器-不同的負載，但可維持原本位置

HYDAC Technology

APPLICATION

Suitable for all transportation vehicles:
E.g. road construction and construction machines, Agricultural machines and as well in passenger transportation like a bus.

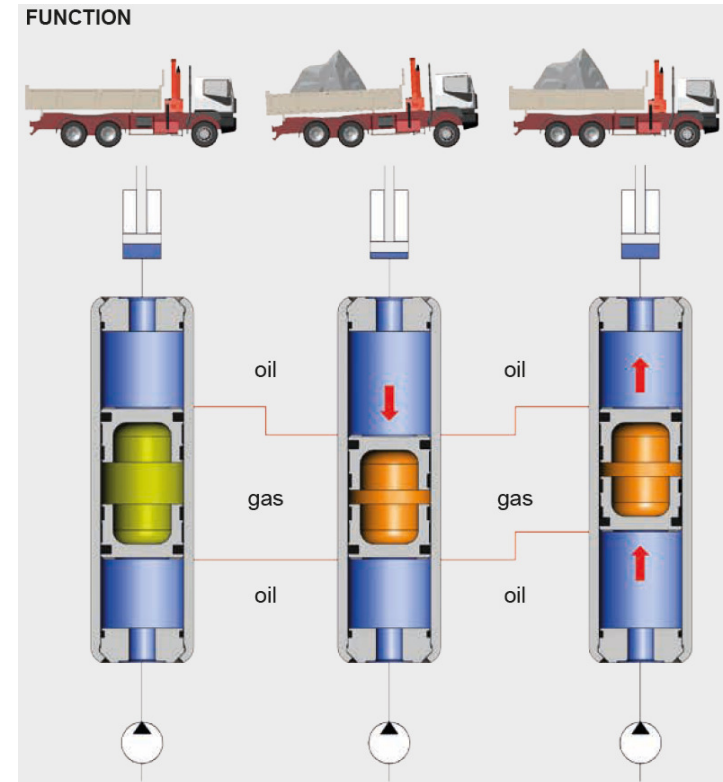

DESCRIPTION

Hydraulic suspension system with level compensation at different loads

ADVANTAGES

- Safety and comfort for the driver
- Flexible dimensioning of the accumulator
- Optimised installation space (one accumulator with two pistons instead of two accumulators)
- Compact unit

應用領域：交通運輸車輛。
